#### HOW TO PLAY:

The player uses the 8-way joystick to control the fighter for taking power items and weapon-selection items, and also uses the shot button and the bomb button to destroy 5 big bosses in 200 areas.

#### KINDS OF ITEMS:

-By taking this item, the speed is increased. When 4 pieces of this item can be taken, the speed reaches its maximum. From the 5th item, 5,000 bonus points can be scored.

-By taking this item, 1 TATSUJIN-bomb is added. The maximum remaining number of TATSUJIN-bombs is 10.

-By collecting and taking 5 pieces of this item, the power is increased by 1 degree. Even if the fighter is killed, 4 pieces (at the maximum) of this item can be remained. (This number is displayed on the upper left part of the screen.)

\*Power Shot: 3 Ways → 9 Ways → 15 Ways

\*TATSUJIN-Beam: 1 Way → 3 Ways → 5 Ways

\*Sun Laser: 1 Way → 3 Ways → 5 Ways

-By taking this item, the remaining number of the fighters is added by 1.

-By taking this item, the remaining number of the fighters is added by 2.

-When this item appears, 5,000 bonus points are awarded.

-There are 3 kinds of this item; red, green and blue.

\*Red is Power Shot. (same as that the fighter appears.) It spreads fanwise.

\*Green is TATSUJIN-Beam. It penetrates small enemies.

\*Blue is Sun Lader. Fighting can be done by keeping on pressing the button. Against boss enemies, when keeping on pressing the button, it is locked on.

Against each enemy, use the weapon by changing it to effective one.
